

CENTRAL LYON COUNTY VECTOR DISTRICT

MINUTES, 04/12/2022 MEETING

The meeting was called to order at 5:00 pm. Members present: Mary Smith, Jerry Culwell , Toni Anderson and Terry Anderson. Tyler Minor was absent. Tim Plants from Integrity Pest Management was present.

Terry Anderson's friend, Barbara, was also present.

Bills were submitted from Integrity Pest Mgmt. and approved.

Integrity reported the mosquito situation is under control and with continued cold weather there shouldn't be any problems for a while. No one has had any citizen complaints. We have done two aerial treatments on the river and another is planned within a few days.

Toni asked Tim if he had any information on the study to eliminate biting mosquitos through a breeding program being conducted at an out-of-state university. Not much information is known other than a group was awarded a grant for a study.

There being no further business, the meeting was adjourned at 5:30.

Approved 05/10/22
